LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

No. D/1194-A. OF 1917.

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY:

Poona, 9th May 1917.

From

THE HONOURABLE SURGEON GENERAL R. W. S. LYONS, M.D., K.H.P., I.M.S.,
SURGEON GENERAL with the
GOVERNMENT OF BOMBAY;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit, for the information of Government, the Annual Report on the Asylums for the treatment of Insanes in the Bombay Presidency for the year 1916.

Buildings and Repairs.

2. The buildings are in good order. No additions were made during the year, as the works which have received the administrative approval of Government have been held over owing to the present financial situation. Additional accommodation for insanes is urgently required at all the Asylums as owing to the numbers admitted increasing every year, the existing accommodation is overcrowded.

Water Supply.

3. The supply of drinking water has been good and sufficient at all the Asylums except the Naupada Asylum where the well is liable to contamination and partially fails during the hot season so that long waits become necessary for the collection of water to enable the engine to work. The well is permanganated twice a week regularly throughout the year. The proposal to supply water from the Tansa Main has received the approval of Government, but it has been postponed for want of funds. The supply of water for gardening at Yeravda Asylum is insufficient as arrangements have not yet been made owing to the war for pumping up river water.

STATEMENT No. I.

Total Population.

4. During the year under review 644 insanes were admitted into the Asylums against 481 in 1915, an increase of 163 or nearly 34 per cent. The re-admissions numbered 24 against 18 in the previous year. The total number of inmates rose from 1,652 in 1915 to 1,900 in 1916. The increase of 248 in the total population was due to larger admissions at all the Asylums but especially at Naupada where the number admitted was 258 as compared with 129 in 1915. The increase was partly caused by the large number of military patients admitted at Naupada and Yeravda Asylums numbering 144 against 43 last year. There was also an increase of 62 among the civil patients admitted who numbered 500 against 438 last year. The Asylums were overcrowded throughout the year although arrangements were made so as to utilize all available space.

Daily Average Strength.

5. The daily average strength was 1,294·6 (males 1,014·8 and females 279·8) as compared with 1,194·0 (males 936·9 and females 257·1) in 1915.

Discharges and Cures.

6. Of the total number treated, 330 were cured against 231 in 1915. One hundred and forty insanes were transferred to the care of friends as compared with 90 in the previous year, and of the insanes returned under this head 90 had improved while under treatment and 50 had not.

7. Of the 10 insanes returned as discharged "otherwise", 4 escaped from the Hyderabad Asylum, 5 were transferred from the Criminal to the Non-criminal list and 1 was removed to another Asylum.

Sickness.

8. The daily average of sick in 1916 was 35·3 as compared with 39·5 in 1915. The general health of the insanes was on the whole satisfactory except in Hyderabad Asylum where malaria was very prevalent causing 100 admissions into hospital. There was no outbreak of epidemic disease at any of the Asylums although there was a severe epidemic of cholera prevailing in the City of Ahmedabad in August 1916.

Mortality.

9. There were 106 deaths against 85 in 1915. The *ratio* of deaths to the daily average strength was 8·2 per cent. against 7·1 per cent. in 1915. Of the total number of deaths in the Asylums, 20 or 18·86 per cent. were due to tuberculosis. These were distributed as follows:—

Dharwar 6,	Yeravda 2, and
Ratnagiri and Hyderabad 4 each,	Ahmedabad 1.
Naupada 3,	

Twenty-five deaths from all causes occurred at Naupada. Of these 5 were among patients who were admitted in very bad bodily health and lived only 3, 3, 7, 25 and 33 days respectively after admission. There were 5 deaths from dysentery in this Asylum. The mortality in Hyderabad Asylum was 32 against 17 last year. The causes of death were chronic malarial cachexia 9, epilepsy 5, dysentery 4, tuberculosis 4, asthma 2, debility 2 and syphilis, pneumonia, Bright's disease, diarrhœa, calculus (bladder) and drowning 1 each. Malaria prevailed to an exceptional degree all over Sind during the year under review and chronic malarial cachexia which is often fatal in persons already weakened by insanity was largely responsible for the number of deaths at this Asylum. The mortality at the other Asylums calls for no special remarks.

STATEMENT No. II.

Criminal Insanes.

10. The number of criminal insanes remaining in confinement on the 1st of January 1916 was 187, which, with 53 admissions during the year, gave a total population of 240 as compared with 224 in 1915. The daily average strength was 186·6 as compared with 172·3 in 1915.

STATEMENT No. III.

Religion, Sex and Residence of the Insanes admitted.

11. Of the 666 insanes admitted during the year there were 53 Europeans and Eurasians, 38 Indian Christians, 333 Hindus and 215 Mahomedans. 27 belonged to other races. This is an increase on the previous year of 60·6 per cent. among Europeans and Eurasians, 48·3 per cent. among Mahomedans, 27 per cent. among Indian Christians, 26 per cent. among Hindus and 17·4 per cent. among other races. The large increase among Europeans and Mahomedans is due to the number of soldiers and military followers admitted.

STATEMENT No. IV.

Previous Occupations of the Insanes Admitted.

12. Military sepoys (71) and military employees, followers, etc. (44) furnished 115 admissions. The other principal occupations admitted were

55 labourers, 37 cultivators, 32 domestic servants, 31 clerks, 30 merchants and traders, 29 British soldiers, 25 mendicants, 17 artisans and 90 of various occupations. In 132 cases the previous occupation could not be ascertained and 73 had no occupation.

STATEMENT No. V.

Ages of Insanes Admitted.

13. Thirty-six insanes were under 20 years on admission as compared with 32 last year; 501 were between 20 and 40 years against 384; 126 were between 40 and 60 years against 170; and 3 were over 60 years of age against 4 last year.

STATEMENT No. VI.

Types of Insanity.

14. The principal types of insanity treated were idiocy 94 against 83 in the previous year, mania 958 against 817, melancholia 333 against 305, delusional insanity 151 against 99, insanity caused by *Cannabis Indica* or its preparations 52 against 51 and dementia 235 against 239. The increase in numbers treated for mania (141), melancholia (28) and delusional insanity (52) is chiefly due to the increase in the number of admissions of military sepoys and followers and of British soldiers for these types of insanity and indicates the strain of war conditions during the year under review.

STATEMENT No. VII.

Ætiological Factors and Associated Conditions in the Insanes admitted.

15. The principal predisposing and exciting causes were mental stress giving rise to 167 cases against 83 last year; the abuse of intoxicants 93 cases against 88; toxic diseases 33 against 24; mental instability 61 against 64; physiological defects and traumatic causes 24 each against 25 and 4 respectively. The causes of insanity were not ascertained in 222 cases owing to insufficient previous history.

STATEMENT No. VIII.

Cash Accounts.

16. The total receipts and expenditure during the year amounted to Rs. 3,89,740-9-6 as compared with Rs. 3,38,924-2-9 in 1915. The receipts from paying patients amounted to Rs. 66,309-15-0 against Rs. 36,762-2-5 in 1915. The large increase of Rs. 29,547-12-7 under this head is attributable to the recovery of charges for insanes from the Municipalities or relatives of insanes concerned, under the recent orders of Government. The value of stores received from the Manufacturing Department less cost of raw materials was Rs. 6,750-1-10 or Rs. 1,340-8-0 more than in the previous year. Deducting the receipts from paying patients, the value of stores received from the Manufacturing Department and the sums realized on account of the sale of goods to the public, etc., the net expenditure amounted to Rs. 2,33,343-3-6 as compared with Rs. 2,42,132-12-3 expended in 1915.

Amusements.

17. For the amusement of insanes Rs. 3,137-15-5 were spent as compared with Rs. 2,815-9-0 expended in 1915.

STATEMENT No. X.

Receipts and Expenditure on account of Manufactures.

18. The net profits from the Manufacturing Department including vegetables amounted to Rs. 8,130-1-7 against Rs. 6,928-11-2 or Rs. 1,201-6-5 more than in the year 1915. When a supply of water for gardening is provided at Yeravda Asylum a large increase in the gardening profits may be anticipated and beneficial employment will be provided for many inmates for whom no suitable work is available. The average number of insanes employed on manufactures was 406·2 against 404·6 in the preceding year.

Visitors.

19. The visitors were on the whole regular in their attendance.

Management.

20. The general management of the Asylums was on the whole satisfactory. The work was carried out under considerable difficulty owing to the crowded condition of all the Asylums and also owing to the difficulty of obtaining and keeping suitable Asylum warders and sweepers. Owing to the increase in the cost of living a suitable class of male and female warders cannot be obtained on the present rates of pay and sweepers are almost impossible to obtain even at an increase of 50 per cent. on the present rates. The growing scarcity of sweepers, especially male sweepers, will shortly render a change from hand removal of excreta to water carriage necessary and the sanitary needs of Lunatic Asylums require that this should be done as soon as possible. The system of hand removal is objectionable, sanitarily, under all circumstances and it is especially so in the case of Lunatic Asylums and Hospitals.

I have the honour to be,

Sir,

Your most obedient servant,

R. W. S. LYONS, M.D.,

Surgeon-General, I. M. S.,

Surgeon-General with the

Government of Bombay.

The capacity of the Narotamdas Madhavdas Lunatic Asylum, Naupáda, is, at 140 superficial feet per paying patient, and at 80 superficial feet per pauper patient, for 198 males and 42 females; the maximum number of lunatics confined on any one night was 256 males and 58 females.

The capacity of the Ratnágiri Lunatic Asylum is, at 50 superficial feet per patient, for 125 males and 33 females; the maximum number of lunatics confined on any one night was 139 males and 38 females.

The capacity of the Central Lunatic Asylum, Yerávda, is, at 110 superficial feet per patient for 112 Europeans—77 males and 35 females and for 274 Indians—199 male and 75 females; the maximum number of European lunatics confined on any one night was 35 males and 18 females and that of Indian lunatics was 275 males and 106 females.

The capacity of the Dhárwár Lunatic Asylum is, at 80 superficial feet per patient, for 78 males and 30 females; the maximum number of lunatics confined on any one night was 98 males and 27 females.

The capacity of the Ahmedabad Lunatic Asylum is, at 64 superficial feet per patient, for 125 males and 31 females, the maximum number of lunatics confined on any one night was 138 males and 38 females.

The capacity of the Hyderabad Lunatic Asylum is, at 74 and 70 superficial feet per patient, for 159 males and 17 females respectively the maximum number of lunatics confined on any one night was 152 males and 18 females.

* One transferred to another Asylum and five transferred from the criminal to non-criminal list.

‖ Escaped.

Note.—The figures shown in the statement include 2 cases under observation at the Central Lunatic Asylum, Yeravda.

STATEMENT No. II.

Annual Reports.—
Report on the Lunatic Asylums in the Bombay Presidency for the year 1916.

GOVERNMENT OF BOMBAY.

GENERAL DEPARTMENT.

Order no. 4774.

Bombay Castle, 11th July 1917.

Letter from the Surgeon General with the Government of Bombay, no. D.—1435, dated the 26th June 1917 :—

"I have the honour to forward herewith the annual report on the Lunatic Asylums of the Bombay Presidency for the year 1916, and to state, for the information of Government, that there is nothing in it, the immediate publication of which can be considered of doubtful expediency."

ORDER.—The report should be published.

G. A. THOMAS,
Secretary to Government.

T

The Surgeon General with the Government of Bombay,

[*P. T. O.*
